### August 2017 meeting of the Osteopathy Board of Australia

The 93<sup>rd</sup> meeting of the Osteopathy Board of Australia (the Board) was held on 30 August 2017 in Melbourne. The Board publishes this communiqué on our website and emails it to a broad range of stakeholders. At each meeting, the Board considers a wide range of issues, many of which are routine and are not included in this communiqué.

The whole Board meets as the Registration and Notification Committee (RNC) on the same day as the Board meetings.

#### Presentations to final year students

In August, the Chair of the Board provided a presentation to all final year osteopathy students in both Melbourne and Lismore; and welcomed the opportunity to answer the questions about registration and advertising in particular.

#### National Boards approve policy for removing reprimands from the national register

A policy to ensure consistent removal of reprimands from the national *Register of practitioners* has been approved by all National Boards.

Reprimands on a practitioner's registration can be imposed under the National Law<sup>1</sup> by a performance or professional standards panel, professional standards committee (NSW), and a relevant tribunal or court.

The policy will ensure that reprimands are removed from the [national register](#) in a consistent and effective way. It also allows for the removal of reprimands imposed under previous legislation to be considered on an individual basis, consistent with removal powers under that legislation.

A reprimand imposed under the National Law will be removed from the national register on the publication end date set by the relevant panel, committee, court or tribunal. Where a panel or tribunal has not set a publication end date, or where the reprimand was imposed under previous legislation, the reprimand will be removed no earlier than five years from the date of initial publication.

This is subject to:

- the practitioner making an application for removal of the reprimand
- no relevant event having occurred in the five-year period of publication of the reprimand, and
- legal advice confirming the power to remove a reprimand imposed under previous legislation.

A relevant event is any health, performance or conduct notification, action taken against the practitioner in relation to an adverse disclosure on renewal of registration, new information returned on a criminal history check or a confirmed breach of restrictions. It also includes when action has been taken against a practitioner about their conduct, health or performance. New notifications, irrespective of whether action was taken, will also be taken into account if an application for removal of a reprimand is received after the five-year period of publication.

The policy will take effect from 2 October 2017 and will be reviewed annually. An application form for removal of a reprimand from the national register will be published under [Common forms](#) on the AHPRA website.

## COAG Health Council updates

### COAG Health Council meeting communiqué: progressing amendments to the National Law

The federal and state and territory health ministers met in Brisbane on 4 August 2017 at the [COAG Health Council](#) to discuss a range of national health issues. The meeting was chaired by the Victorian Minister for Health, the Hon. Jill Hennessy. AHPRA CEO Martin Fletcher attended the Australian Health Workforce Ministerial Council (the Ministerial Council) meeting which brings together all health ministers throughout Australia to provide oversight for the work of the National Scheme. AHPRA and the National Boards provide a regular update to the Ministerial Council on our work.

The meeting included an agreement by health ministers to proceed with amendments to the National Law, to strengthen penalties for offences committed by people who hold themselves out to be a registered health practitioner, including those who use reserved professional titles or carry out restricted practices when not registered. Ministers also agreed to proceed with an amendment to introduce a custodial sentence with a maximum term of up to three years for these offences. These important reforms will be fast tracked to strengthen public protection under the National Law. Preparation will now begin on a draft amendment bill, with a view to being introduced to the Queensland Parliament in 2018.

Ministers also discussed mandatory reporting provisions for treating health practitioners, agreeing that protecting the public from harm is of paramount importance as is supporting practitioners to seek help and treatment for their health concerns, including for their mental health and wellbeing. It was agreed that the Australian Health Ministers' Advisory Council will recommend a nationally consistent approach to mandatory reporting exemptions for treating practitioners following a consultation process with consumer and practitioner groups. A proposal on mandatory reporting is expected to be considered at the November 2017 meeting of the COAG Health Council.

The Council produces a [communiqué](#) from its meeting which can be accessed on AHPRA's website.
